EXPERIENCE

AI Application Developer Jan 2026 - Present
ORACLE India Ltd. | Hyderabad

- Provided technical support under the BASE (Business AI Studio Enablement) program by resolving user tickets.
- Assisted business teams in debugging and optimizing AI agents, improving adoption and development efficiency.
- Architected a Customer Data Query chatbot agent enabling secure access to customer information.
- Delivered GenAI-powered solutions to streamline business workflows and enhance decision-making capabilities.
- Set up and configured a Model Context Protocol (MCP) server for internal team use cases.
- Automated birthday-email notification and employee leave-tracking workflows, reducing routine manual effort.

Data Scientist (MLOps & GenAI Application Development) Jun 2025 - Dec 2025
Axis Bank | Bangalore

- Engineered an automation system for real-time API testing, LLM token-cost optimization, and GenAI applications.
- Created GenAI applications using CrewAI for agent orchestration and Copilot Studio for AI-agent customization.
- Validated data pipelines and improved reporting workflows, supporting governance and accuracy across teams.
- Implemented loan-approval and risk-scoring models to estimate probability of default and support lending decisions.
- Conducted portfolio analysis, profitability modeling, and channel optimization; delivered dashboards using Power BI, Tableau, Python, and SQL.

Summer Intern May 2024 - Jul 2024
Reliance Industries Limited

- Received a Pre-Placement Offer for outstanding performance and contribution.*
- Conducted data-driven analysis and troubleshooting for a Linear Low-Density Polyethylene (LLDPE) extruder.
 - Analyzed 4-5 years of data to identify likely causes of barrel leakage, dryer-current overload, and related issues.
 - Used SAP to manage purchase orders and purchase requisitions, streamlining procurement processes.
 - Executed engineering solutions that increased plant output and overall efficiency by 25%.

PROJECTS

Online Real Estate Platform | CS253, Prof. Indranil Saha Jan 2024 - Apr 2024

- Engineered a responsive real-estate web application that streamlined property discovery, listing publication, and buyer-seller coordination through clearly defined user workflows.
- Produced complete SDLC documentation covering functional requirements, system design, implementation planning, test scenarios, and acceptance validation within a Waterfall delivery model.
- Led a 10-member delivery team, coordinating HTML, CSS, JavaScript, and SQL implementation while managing task allocation, integration milestones, and data consistency.
- Designed SQL-backed workflows for property listings and user records, then incorporated structured feedback from VeerX members, faculty, and student stakeholders.
- Demonstrated the working prototype to VeerX, validating usability and practical relevance through stakeholder feedback and iterative feature refinement.

Who is the Real Winner | CS253, Prof. Indranil Saha Jan 2024 - Apr 2024

- Built a Random Forest multiclass classification pipeline to predict education levels of state-election winners from structured candidate-level features.
- Applied one-hot encoding, F1-score evaluation, and GridSearchCV-based hyperparameter optimization to improve model-selection rigor and generalization.
- Achieved 0.22386 private and 0.22177 public test scores; analyzed candidate asset valuation and criminal-record profiles with Python, Matplotlib, and Seaborn.

CAR-PUF | CS771, Prof. Purushottam Kar Jan 2024 - Apr 2024

- Built a C-SVM model by transforming 32-bit challenge vectors into 528-dimensional feature representations; achieved 99.19% training and 99.07% cross-validation accuracy.

OOPSify | Association of Computing Activities, IIT Kanpur Apr 2023 - Jul 2023

- Implemented C++ data structures while strengthening expertise in dynamic memory management, constructors, destructors, operator overloading, inheritance, polymorphism, and abstraction.

EDUCATION

B.Tech in Mechanical Engineering 2021 - 2025
Indian Institute of Technology Kanpur **7.6 / 10**
CBSE (XII) 2021
Bridgeford School, Ranchi **98.4 / 100.0**
CBSE (X) 2019
Bridgeford School, Ranchi **99.2 / 100.0**

KEY ACHIEVEMENTS

- Secured AIR 3531 in JEE Advanced 2021 among 1.2 lakh shortlisted candidates.
- Ranked 5416 among 1.5 million applicants in JEE Main 2021.
- Secured 3rd position in the CBSE Class X Board Exams (2019), recognized as Jharkhand State Topper.
- Qualified for the Regional Mathematics Olympiad (RMO), 2019.
- Awarded the Merit-Cum-Means Scholarship by the Ministry of Minority Affairs, Government of India.
- Earned International Rank 37 and zonal rank 4 in the SilverZone International Olympiad of Mathematics (2019).
- Earned International Rank 182 and zonal rank 9 in the SilverZone International Olympiad of Science (2019).

SKILLS

Programming Languages
C C++ Python PySpark React JavaScript HTML CSS SQL CrewAI Langextract

Software and Libraries
Git GitHub Google Colab Pandas NumPy Scikit-learn SciPy Power BI Excel CML

TRAINING / COURSES

Data Structures & Algorithms

Software Development and Operations

Introduction to Machine Learning (A)

Fundamentals of Computing

Computer Networks

Introduction to Electrical Engineering

Introduction to Electronics

Introduction to Robotics

Electric Vehicles
