

Academic Qualifications			
Year	Degree/Certificate	Institute	CPI/%
2021 - 2025	B.Tech(ME)	Indian Institute of Technology Kanpur	7.6/10
2021	CBSE(XII)	Bridgeford School, Ranchi	98.4%
2019	CBSE(X)	Bridgeford School, Ranchi	99.2%

Scholastic Achievements	
- Secured All India Rank 3531 in Joint Entrance Examination Advanced 2021 among the 1.2 Lakh shortlisted candidates - Ranked 5416 among 1.5 million applicants in highly competitive & prestigious Joint Entrance Examination (Mains) 2021 - Secured the prestigious 3rd position in the CBSE 10th Board Exams 2019, recognized as the Jharkhand State Topper - Successfully qualified for the highly competitive and prestigious Regional Mathematics Olympiad (RMO) held in 2019 - Awarded the prestigious Merit-Cum-Means scholarship granted by the Ministry of Minority Affairs, Government of India - Achieved International Rank 37 and zonal rank 4 in 2nd level of Silver Zone Olympiad of Mathematics (IOM) 2019 - Achieved International Rank 182 and zonal rank 9 in 2nd level of Silver Zone Olympiad of Science (IOS) 2019	

Work Experience	
ORACLE India Ltd. (Hyderabad) AI Application Developer (Jan'26 – Present)	
Focus	- Provided technical support under BASE (Business AI Studio Enablement) program by resolving user tickets - Assisted business teams in debugging, and optimizing AI agents, improving adoption and development efficiency
AI-COE	- Designed and developed a Customer Data Query Chatbot Agent enabling access to customer information - Built GenAI-powered solutions to streamline business workflows and enhance decision-making capabilities
Platform	- Set up and configured a Model Context Protocol (MCP) server for internal team use cases - Developed integrated tools such as automated birthday email notifications and employee leave tracking systems - Automated routine team operations, improving internal productivity and reducing manual effort

Axis Bank (Bangalore) Data Scientist (MLOps & GenAI Application Development) (June'25 – Dec'25)	
Focus	Developing Automation System for Real time API testing, LLM token cost optimization, & GenAI applications
MLOps	- Build GenAI applications, leverage CrewAI for agent orchestration and Copilot Studio for AI agent customization - Validate data pipelines and improve reporting workflows, ensuring governance, accuracy across different teams - Develop loan approval models to estimate probability of default and determine customer creditworthiness - Deploy risk scoring systems to support data-driven lending decisions, accuracy and reducing NPA risk
Analytics	- Perform portfolio analysis, profitability modeling, and channel optimization for lending products - Deliver insights and dashboards using Power BI, Tableau, Python, and SQL

Reliance Industries Limited Summer Intern (May'24 - July'24)	
(Received a Pre-Placement Offer for outstanding performance and contribution to the company)	

Objective	Data-Driven Analysis & Troubleshooting of Linear Low-Density Polyethylene (LLDPE) Extruder
Strategy	Researched on 4-5 years of data to predict critical cause of barrel leakage, dryer current overload & other issues - Used SAP to manage Purchase Orders (PO) & Purchase Requisitions (PR) streamlining procurement process
Impact	- Conducted research on accurately predicting current issues and their solutions to enhance operational efficiency - Executed engineering solutions that resulted in a remarkable 25% increase in plant output & overall efficiency

AI & Software Projects	
Online Real Estate Platform CS253 Course Project, Prof. Indranil Saha (Jan'24 - April'24) 	
Objective	Develop a responsive software to automate time-consuming process of buying & selling real estate property
Strategy	- Implemented Waterfall Model with extensive documentation on Requirements, Design, Implementation & Testing - Engaged with stakeholders:VeerX members, professor& students, to gather feedback and refine product features
Impact	- Led a 10-member team, managing & organizing data with HTML, CSS, JavaScript, & SQL-based database - Successfully presented the platform to tech startup VeerX receiving positive feedback on its practical application

Who is the Real Winner CS253 Course Project, Prof. Indranil Saha (Jan'24 - April'24) 	
- Trained a RandomForest model for multi-class classification to predict the education level of winners in State elections - Evaluated model performance using advanced F1 score metrics and optimized hyper-parameters through GridSearch CV, applying one-hot encoding, and achieving 0.22386 on the Test Private Score and 0.22177 on the Test Public Score - Analyzed election candidates profiles-asset valuation, criminal records,& visualized insights using Python,Matplotlib,Seaborn	

CAR-PUF CS771(Intro to Machine Learning) Course Project, Prof. Purushottam Kar (Jan'24 - April'24) 	
- Constructed a C-SVM ML model by transforming 32-bit challenge vectors into highly informative 528-dim. feature vectors Validated with multiple linear classifiers, achieving 99.19% accuracy on training set and 99.07% on cross-validation data - Implemented optimized hyper-parameters by trade-off between accuracy & training time through plots of C and tol	
OOPSiify Association of Computing Activities,IIT Kanpur (April'23 - July'23)	
- Mastered C++ memory management by studying pointers, dynamic memory allocation, and effective memory release techniques - Designed and implemented C++ data structures, utilizing constructors,destructors, and operators for robust & efficient code	

Technical Skills	
Programming Languages:C, C++, Python, PySpark ,React, JavaScript, HTML, CSS, SQL, CrewAI, Langextract Software and Libraries: Git, GitHub, Google Colab, Pandas, Numpy, Scikit-Learn, SciPy, Power-BI, Excel,CML
