EXPERIENCE

AI Application Developer Jan 2026 - Present

ORACLE India Ltd. | Hyderabad

Tech Stack: JAVA,Python, LangGraph, LangChain, FastMCP, Agentic AI, Docker, Kubernetes

- Built **AI agents and GenAI workflows** using **prompt engineering** to automate internal business processes, **reducing manual effort by 86%**.
- Built **REST API wrappers** in Python (FastAPI) and **Java (Spring Boot)** for Oracle APEX services, with request timeouts, error handling and diagnostic logging.
- Provided **BASE** (Business AI Studio Enablement) technical support by resolving tickets.
- Assisted business teams in **debugging and optimizing AI agents**, improving adoption and development efficiency.
- Architected a **Customer Data Query chatbot agent** enabling secure access to customer information.
- Built and configured a **Model Context Protocol (MCP) server** for employee events, automating birthday notifications, anniversary tracking and employee leave workflows.
- Received **Rockstar of the Month (Applause Award)** in **May 2026**.

Data Scientist (MLOps & GenAI Application Development) Jun 2025 - Dec 2025

Axis Bank | Bangalore

- Engineered an automation system for **real-time API testing**, **LLM token-cost optimization**, and GenAI applications.
- Created GenAI applications using **CrewAI** for agent orchestration and **Copilot Studio** for AI-agent customization.
- Validated **data pipelines** and improved reporting workflows, supporting governance and accuracy across teams.
- Implemented **loan-approval and risk-scoring models** to estimate **probability of default** and support lending decisions.
- Conducted **portfolio analysis**, profitability modeling, and channel optimization; delivered dashboards using **Power BI, Tableau, Python**, and **SQL**.

Summer Intern May 2024 - Jul 2024

Reliance Industries Limited

Received a **Pre-Placement Offer** for outstanding performance and contribution.

- Conducted **data-driven analysis** and troubleshooting for a Linear Low-Density Polyethylene (LLDPE) extruder.
- Analyzed **4-5 years of data** to identify likely causes of barrel leakage, dryer-current overload, and related issues.
- Used **SAP** to manage **purchase orders** and **purchase requisitions**, streamlining procurement processes.
- Executed engineering solutions that increased plant output and overall efficiency by **25%**.

PROJECTS

Online Real Estate Platform | CS253, Prof. Indranil Saha Jan 2024 - Apr 2024

- Led a **10-member team** on a real-estate brokerage prototype using **React, Django and MySQL**, coordinating frontend, backend and database development across the project.
- Developed a **Java/Spring Boot backend extension** with property CRUD APIs, filtered search and pagination, using **MySQL and Spring Data JPA** for database persistence.
- Co-authored **SRS and design documents** detailing buyer, seller and admin workflows, user interface requirements, system architecture and the team's implementation plan.
- Contributed to **frontend planning** for property, portfolio, watchlist and user funds pages, defining navigation and page requirements around the platform's investment workflows.
- Presented the prototype to **VeerX** and incorporated feedback from faculty and students, refining feature requirements and usability based on stakeholder feedback and reviews.

Who is the Real Winner | CS253, Prof. Indranil Saha Jan 2024 - Apr 2024

- Built a **Random Forest** classifier to predict **10 education categories** from election data, using candidate assets, liabilities, criminal records, state and party as key model inputs.
- Normalized assets and liabilities in **Pandas** by converting monetary suffixes to numeric values; applied **one-hot encoding** to state and party variables for model development.
- Tuned **72 parameter combinations** with **5-fold GridSearchCV** using micro-F1 scoring; achieved competition test scores of **0.22386 (private test)** and **0.22177 (public test)**.

CAR-PUF | CS771, Prof. Purushottam Kar Jan 2024 - Apr 2024

- Constructed a **C-SVM** model for CAR-PUF challenge-response prediction, transforming **32-bit challenge vectors** into **528-dimensional feature vectors** for linear classification.
- Tested **multiple linear classifiers** on CAR-PUF data, with **99.19% training accuracy** and **99.07% cross-validation accuracy** for model prediction from transformed features.
- Tuned **C and tol** by comparing **accuracy and training time** across parameter settings; used performance plots to evaluate trade-offs between predictive accuracy and speed.

OOPSify | Association of Computing Activities, IIT Kanpur Apr 2023 - Jul 2023

- Implemented a **C++ student-record manager** using structs and vectors to store names, roll numbers and departments, with query-based insertion and retrieval by roll number.
- Studied **C++ memory management**, covering pointers, dynamic memory allocation and constructors/destructors; explored operators, inheritance, polymorphism and abstraction.

EDUCATION

B.Tech in Mechanical Engineering 2021 - 2025

Indian Institute of Technology Kanpur

7.6 / 10

CBSE (XII) 2021

Bridgeford School, Ranchi

98.4 / 100.0

CBSE (X) 2019

Bridgeford School, Ranchi

99.2 / 100.0

KEY ACHIEVEMENTS

- Secured **AIR 3531** in **JEE Advanced 2021** among 1.2 lakh shortlisted candidates.
- Ranked **5416** among 1.5 million applicants in **JEE Main 2021**.
- Secured **3rd position** in the **CBSE Class X** Board Exams (2019), recognized as **Jharkhand State Topper**.
- Qualified for the **Regional Mathematics Olympiad (RMO)**, 2019.
- Awarded the **Merit-Cum-Means Scholarship** by the Ministry of Minority Affairs, Government of India.
- Earned **International Rank 37** and **zonal rank 4** in the SilverZone International Olympiad of **Mathematics (2019)**.
- Earned **International Rank 182** and **zonal rank 9** in the SilverZone International Olympiad of **Science (2019)**.

SKILLS

Programming Languages

JAVA, C, C++, Python, PySpark, React, JavaScript, HTML, CSS

SQL CrewAI Langextract

Software and Libraries

Git GitHub Google Colab Pandas NumPy Scikit-learn

SciPy Power BI Excel CML

COURSES

Data Structures & Algorithms

Software Development and Operations

Introduction to Machine Learning (A)

Fundamentals of Computing

Computer Networks

Introduction to Electrical Engineering

Introduction to Electronics

Introduction to Robotics

Electric Vehicles

POSITIONS OF RESPONSIBILITY

Company Coordinator | IIT Kanpur

May 2022 - May 2023

- Facilitated placements for **1,000+ students**, supporting candidates throughout recruitment and helping them secure employment opportunities.
- Coordinated with **HR teams at leading multinational companies**, maintaining formal communication between recruiters and students.

Student Guide | IIT Kanpur

Oct 2022 - Oct 2023

- Guided first-year students during orientation and throughout their first year, helping them adjust to academic and campus life.
- Provided peer counselling and reassurance to students experiencing homesickness, supporting their transition to life away from home.

Academic Mentor | IIT Kanpur

Oct 2022 - Oct 2023

- Served as **Academic Mentor for CHM101**, teaching first-year students through online and offline classes.
- Explained course concepts and addressed students' questions to strengthen understanding and support their learning.
